LETTER OF RECOMMENDATION

To Whom It May Concern:

Mr. Bill Kratochvil with Global Webnet, LLC developed software for our company to use as an electronic health record. He transformed our old database and medical forms into a new database with forms accessible via a website and a PDA. His mastery of multiple software development platforms is evident as he integrated whatever requests we had into new software code. I recommend Bill Kratochvil as a software developer without reservation.

Please contact me at THOMASSAMESMD@AOL.COM if you have any questions.

Thomas A. Sames, MD
